

Four of us will be traveling from the Dallas area to Lake Murray State Park, Pecan Grove day-use area. We will be using individual callsigns. One is a technician who will be using my callsign. The other is an extra but I don't know if she will be logging under her callsign or mine. The last is an extra and a very intense "take-no-prisoners" contester who will log under his callsign K5LOL

We'll have three or four antennas, three or four radios. I will have my ICOM IC-7000, Tom will have his FT-891 (probably; I think he also has an Elecraft but that might be a KX series). and Luellen will have both an ICOM FT-718 and an ICOM FT-7200.

We expect to arrive at Pecan Grove around 9 to 9:15 and be on the air by about 9:30. Two of us will pack up and depart by 1730 and the other two of us will stay later probably and overnight in Ardmore.
